Address: Gurugram, Haryana, India, 122002

PROFESSIONAL SUMMARY

Skilled and results-driven software engineer with **3 years 9 months** of experience developing and maintaining critical **web applications**. Proficient in **Backend Development** (Relational Database Management, API development), **Data Analysis** (data cleaning, preprocessing, analysis, visualization), and **Machine Learning** (Model Evaluation, Validation, and Deployment). Adept in leveraging Python libraries (Pandas, NumPy) and frameworks to deliver efficient solutions.

SKILLS

- **Programming Languages:** Python, SQL
- **Backend Development:** Flask, Django, REST APIs
- **Data Analysis:** Pandas, NumPy, Matplotlib, Power BI
- **Databases:** PostgreSQL, MySQL
- **Machine Learning:** Scikit-Learn, PyTorch, SpaCy (NLP)
- **Tools:** AWS, Git & Github, Docker, Bash, Gen AI

WORK EXPERIENCE

- **Senior Executive Engineer, Samsung SDS, Gurugram** Oct 2024 - Present
 - Attended training in **Generative AI, LLMs**, and o9 Solution Part and integrated **Python** with it.
 - Partnered with team members using the o9 Solution Platform to create integrations using **Python plugins**.
 - Developed specialised **AI agents** using the **ADK** framework for auto content generation and evaluation workflow.
 - Developed **o9 Optimizer Agent** for answering all optimization-related issues with the Reports in various Tenants.
 - Implemented **QA Automation Engine** to automate all the QA Processes and generate the Accuracy report.
 - Implemented methods for delivering Weekly Productivity reports of teams in the organization by developing an end-to-end **RAG** system for processing annual reports with advanced PDF extraction (**GMFT, Partition PDF**)
 - Implemented **embeddings** and a **vector database** for unstructured financial data retrieval.
 - Deployed **LLM** role assignment with **token optimization**, solving length limitations using **divide-and-conquer**
- **Software Engineer, HCLTech Pvt. Ltd, Noida** Sep 2022 - Sep 2024
 - **Engineered and sustained web applications designed** for recruitment and job rotation purposes.
 - Explored and implemented methods for visualizing and delivering daily reports on the status of schedulers for **3+** applications, leveraging **Power BI** for effective data presentation.
 - Deployed machine learning algorithms for over **10+ features**, including profile matching, suggestions, content tagging, CV parsing, and smart search functionalities, ensuring high performance and user satisfaction.
 - Participated in thorough **code reviews, bug fixing, integration testing**, and **unit test** plan reviews for **20+ Change Requests (CRs)**, ensuring strict adherence to the Software Development Life Cycle (SDLC) protocols.
 - Identified and addressed potential issues, contributing to the resolution of over **500+ incidents and problem tickets**, achieving a 30% reduction in system downtime.
 - Collaborated with team members for deploying web services on **AWS Cloud** and **Microsoft Azure**, contributing to a 98% service reliability rate through robust cloud solutions.
 - Partnered with team members using version control systems e.g. Git to organize modifications and assign tasks.

EDUCATION

- | | | |
|-----------------------------------|---------------------------------|------|
| • Bachelor of Technology (B.Tech) | Aryabhatta Knowledge University | 2022 |
| • Diploma in Computer Application | ARCADE Computer Academy | 2018 |

TRAINING & CERTIFICATIONS

- | | |
|--|----------|
| • AI Programming with Python LINK - Udemy Nano Degree Program | Oct 2023 |
| • Full Stack Web Development LINK - E & ICT Academy, IIT Kanpur | Jun 2020 |

PROJECTS

- **Near Miss Incident Analysis** | Python, Machine Learning, Data Analysis, and Viz. Oct 2025
Created a predictive knowledge graph-based web application leveraging NLP to analyze near-miss incidents, providing real-time insights and improved accident prevention.

ACHIEVEMENTS

- | | |
|---|-------------|
| • Secured 1st position in National Science Day - 2022 Competition organized by BCST, Bihar . | 2022 |
| • Secured 1st position in the AI & ML Online Training by EdgeFX Technologies Private Limited. | 2021 |
| • Secured 1st Position in Boot Camp & Hackathon on Emerging Technologies under TEQIP-III . | 2019 |
| • Recognized and certified as an NPTEL Star , an NPTEL Domain Scholar , and an NPTEL Discipline Star | 2022 & 2021 |

OTHER RELEVANT INFORMATION

- **Business / Soft Skills:** Excellent Communication, Teamwork, Problem-Solving, Time Management, Analytical Thinking
- **Technical Skills:** Matplotlib, JSON, MS Excel, SciPy, PyTest, LLMs, Gen AI, Selenium, HTML, FastAPI, SQL (RDBMS)
- **Platforms:** PyCharm, Jupyter Notebook, Visual Studio Code, Visual Studio 2022, Postman, SSMS, PowerShell
